649

Journal of the Indian Chemical Society.
Vol. IX, 1932.

INDEX OF AUTHORS.

PAGE

ADHIKARI, Nadiabehari.—See Prafulla Chandra RÂY.

AHOBALACHARYA, C. and N. R. DHAR.—Preparation and properties of highly concentrated sols. Part II. Sols of vanadium pentoxide, silicic acid and molybdic acid ... 441

AHLUWALIA, Gurcharan Singh, Basheshar Das KOCHHAR and Jñanendra Nath RÂY.—Studies in chemotherapy. Part III. Attempts to prepare antimalarials. Derivatives of cotarnine 215

BANERJEE, Dilipkumar.—See P. C. MITTER.

BANERJEE, Sanat Kumar.—Azlactone from 6-aldehydocoumarin and its condensation with some aromatic amines ... 479

BANERJEE, Sobhanlal and Hemendra Kumar SEN.—The Kinetics of the action of ammonium halides on epichlorhydrin ... 509

BARNES, Edward.—Some observations on selenium and selenium dioxide and the oxides of nitrogen ... 329

BARVE, P. M.—See B. N. DESAI.

BASU, N. N.—See J. K. CHOWDHURY.

BHADURI, Bhutnath.—See Bawa Kartar SINGH.

BHAGWAT, W. V. and N. R. DHAR.—Influence of stirring on the velocity and temperature coefficient of photochemical reactions 335

———See also N. R. DHAR.

BHALLA, Rattan Chand.—See Mahan SINGH.

BHATNAGAR, S. S. and A. N. KAPUR.—A magnetic study of the colour changes in cobalt chloride 341

BHATNAGAR, S. S. and Piyara Lal KAPUR.—Magnetic properties of solid solutions 347

BHATTACHARYYA, Kshitish Chandra.—See Anukul Chandra SIRCAR.

BISWAS, Susil Chandra.—Diamagnetism in evidence of I. P. of niton 233

PAGE

BRAHMACHARI, Upendranath and Jnanendra Mohan DAS-GUPTA.—Studies in quinoline compounds. Part VI. ... 37

———Studies in quinoline compounds. Part VII. ... 207

CHAKRAVARTI, Amiya Kumar.—See M. N. GOSWAMI.

CHAKRAVARTI, Duhkhaharan.—Synthesis of chromones. Part I. Condensation of halogenated phenols and cresols with alkyl acetoacetic esters 23

———Synthesis of chromones. Part II. Condensation of nitrophenols with alkyl acetoacetic esters ... 31

———Synthesis of chromones. Part III. Condensation of β-naphthol with alkyl acetoacetic esters 389

CHAKRAVARTI, Satyendra Nath and A. P. Madhavan NAIR.—An attempted synthesis of oxyprotoberberine and a synthesis of 3-methoxyoxyprotoberberine 577

CHAKRAVARTI, Satyendra Nath, N. Anantha VAIDYANATHAN and A. VENKATASUBBAN.—A new synthesis of 3-10-dimethoxy-tetrahydroprotoberberine 578

———See also Shrirang M. SANE.

CHATTERJEE, Harendra Nath.—See Anath Nath MITRA.

CHATTERJEE, Nihar Ranjan.—See Sudhamoy GHOSH.

CHHABRA, B. D. and H. R. LUTHRA.—On a test of the rival theories of active nitrogen 21

CHOWDHURY, J. K. and M. N. MITRA.—Some acid constituents of jute fibre 291

CHOWDHURY, J. K. and N. N. BASU.—A comparative study of jute and cotton celluloses 615

DALAL, Mohonlal and Sikhibhushan DUTT.—A general synthesis of α-unsaturated acids from malonic acid. Part II. 309

DAS-GUPTA, Hirendra Nath.—A new method of estimating arsenic in organo-arsenic derivatives. Part I. ... 95

———A new method of estimating arsenic in organo-arsenic derivatives. Part II. 203

———Studies in organo-arsenic compounds. Part I. ... 371

———Studies in organo-arsenic compounds. Part II. ... 393

———See also M. GOSWAMI.

DAS-GUPTA, Jnanendra Mohan.—See Upendranath BRAHMACHARI.

PAGE

DAS-GUPTA, Tuhinangsu and Pulin Bihari SARKAR.—On a new method of preparation of hexammine-tri-ol-dicobalti-chloride and the preparation of some nuclear polymers 79

DATTA, J.—See M. GOSWAMI.

DE, Satish Chandra—See Paresh Chandra DUTTA.

DESAI, B. N. and G. M. NABAR.—A note on the Liesegang rings of silver chromate in gelatine 141

DESAI, B. N., G. M. NABAR and P. M. BARVE.—Relation between charge and stability of colloidal solutions of gold and ferric hydroxide dialysed to different extents ... 463

DESHAPANDE, S. S.—Synthesis of 2:6-diethyl-4-pyrone and 2:6-di-*n*-propyl-4-pyrone 303

DESHPANDE, P. Y.—See Mata PRASAD.

DEY, Biman Bihari and Arupathi Krishnaswami LAKSHMINARAYANAN.—Coumarins and chromones from β-naphthol ... 149

DEY, Biman Bihari, Rubugunday Hari Ramachandra RAU and Yegnarama SANKARANARYANAN.—Constitution of β-naphthapyrones 71

—— The stability of coumarinic acids derived from βα-1:2-naphthapyrones 281

DEY, Biman Bihari and Mayavaram Vasudeva SITHARAMAN.—Peroxidases. Part II. The Influence of the concentration of substrate (hydroquinone), of hydrogen peroxide, *p*H, and other factors on the activity of the peroxidase of chow chow (*Sechiun edule*) 499

DHAR, N. R. and W. V. BHAGWAT.—Temperature coefficients of photochemical reactions 225

—— See R. N. MITTRA, W. V. BHAGWAT, C. AHOBALACHARYA and R. D. SHARMA.

DIKSHIT, Brij Behari Lal and Sikhibhushan DUTT.—The constitution of marmelosin. Part I. 271

DOSS, K. S. Gururaja.—The Fluoremetric formula ... 601

DUTT, Sikhibhushan.—See Gajanan Purushottam PENDSE, Brij Behari Lal DIKSHIT, Mohon Lal DALAL, Jagaraj Behari LAL.

DUTTA, Paresh Chandra.—Indigoid dyes derived from phenanthraquinone. Part I. Thionaphthene-phenanthrene indigos 99

DUTTA, Paresh Chandra, Damodar PRASAD and Satish Chandra DE.—Dyes derived from phenanthraquinone: fluorenophenanthrazines 211

PAGE

FAROOQ, Mohammad Omar and Robert Fergus HUNTER.—The formation and stability of polybromide derivatives of heterocyclic compounds. Part I. The bromination of diphenyl-ψ-thiohydantoin and its *ortho*-tolyl homologue ... 545

GANGULI, S. C.—See J. C. GHOSH.

GHATAK, Narendranath and Ramjee KAUL.—Chemical examination of the seeds of *Abrus precatorius*, Linn. Part I. ... 383

GHOSE, T. P.—See S. KRISHNA. ... ...

GHOSH, D. N.—Determination of flocculation values from measurements of the rate of coagulation of an arsenic sulphide sol 591

GHOSH, J. C., S. N. RAYCHAUDHURI and S. C. GANGULI.—Studies in oxidation-reduction potential. Part I. Cystine 43

—— Studies in oxidation-reduction potential. Part II. Thioglycollic and thiolactic acids 53

GHOSH, Sudhamoy and Nihar Ranjan CHATTERJEE.—Some new hydrocupreidine derivatives. Part II. 83

GOSWAMI, M. and H. N. DAS-GUPTA.—Introduction of arsenic into coumarin nucleus. Part II. 91

GOSWAMI, M. and J. DATTA.—Examination of the oil of *clupea ilisha* 243

GOSWAMI, M. N. and Amiya Kumar CHAKRAVARTI.—A preliminary note on a new method of synthesising benzopyrylium compounds 599

GUHA, Sisir Kumar.—Dyes derived from acenaphthenequinone. Part III. Azines and indigoid vat dyes 423

GUNJIKAR, K. R. and T. S. WHEELER.—A note on the calculation of the space displacements of terminal carbon atoms in ring formation 87

HUNTER, Robert Fergus.—The directive effect of substituents on the cyclisation of substituted *s*-diarylthiocarbamides. Part I. The effect of fluoro, iodo, and cyano substituents on the formation of anilinobenzthiazole derivatives from mono-*p*-substituted thiocarbanilides and bromine ... 435

HUNTER, Robert Fergus and Edwin Richard PARKEN.—The interaction of *s*-*p*-carbethoxyphenylalkylcarbamides with bromine and a note on the effect of the *iso*butyl group on hydrotribromide formation in 1-alkylaminobenzthiazoles 357

—— See also Mohammad Omar FAROOQ.

PAGE

JOSHI, Shiam Sunder.—See Shrirang M. Sane.

JOSHI, Shridhar Sarvottam and Gurudas Ramchandra PHANSALKAR.—Studies in the coagulation of colloids from the standpoint of Smoluchowski's theory. Part III. Coagulation of arsenious sulphide sol by sulphuric acid solutions 157

KAPADIA, B. M.—See A. N. MELDRUM.

KAPPANNA, A. N. and H. W. PATWARDHAN.—Kinetics of the reaction between bromacetate and thiosulphate ions at great dilutions 379

KAPUR, A. N.—See S. S. BHATNAGAR.

KAPUR, Piyara Lal.—See S. S. BHATNAGAR.

KATRAK, (Miss) B. N. and A. N. MELDRUM.—Condensation of butylchloral with gallic acid and the three cresotic acids ... 121

K'UL, Ramjee.—See Narendranath GHATAK.

KOCHHAR, Basheshar Das.—See Gurcharan Singh AHLUWALIA.

KRISHNA, S. and T. P. GHOSE.—Actinodaphnine. An alkaloid from *Actinodaphne hookeri*, Meissn. 429

LAKSHMINARAYANAN, Arupathi Krishnaswami.—See Biman Bihari DEY.

LAL, Jagaraj Behari and Sikhibhushan DUTT.—Metallic cerium in organic synthesis 565

LUTHRA, H. R.—See B. D. CHHABRA.

MAHANT, Sampuran Das.—The oxidation of sulphur dioxide in the electrodeless discharge 417

MALHOTRA, R. C.—Composition of kapok seeds 413

MELDRUM, A. N. and B. M. KAPADIA.—Condensation of chloral with 2-hydroxy-*p*-toluic acid and its methyl ether ... 483

———See also (Miss) B. N. KATRAK. ... ...

MITRA, Anath Nath, Harendra Nath CHATTERJEE and Hemendra Kumar SEN.—Explosion of oxy-hydrogen mixtures in soap bubbles 163

MITRA, M. N.—See J. K. CHOWDHURY. ... ...

MITRA, Susil Kumar.—On thioaldehydes and thioketones ... 633

MITTER, P. C. and Hirendra Chandra RAY.—Friedel and Crafts' reaction with phenolic acid 247

PAGE

MITTER, P. C. and Dilipkumar BANERJEE.—Synthesis of aloe-emodin 375

MITTRA, R. N. and N. R. DHAR.—Preparation and properties of highly concentrated sols. Part I. 315

NABAR, G. M.—See B. N. DESAI.

NABAR, M. V. and Mata PRASAD.—The effect of sugars on the inhibition of the precipitation of ceric hydroxide from a solution of ceric ammonium nitrate 609

NAIK, K. G. and R. P. PATEL.—Mercuration of compounds containing the reactive methylene group by means of mercuric acetate 185

———Mercuration of compounds containing the reactive methylene group by means of mercuric chloride. Part II. ... 533

NAIK, K. G. and V. B. THOSAR.—A study of the interaction between thionyl chloride and substances containing the reactive methylene group. Part III. 127

———A study of the interaction between thionyl chloride and substances containing the reactive methylene group. Part IV. 471

NAIR, A. P. Madhavan.—See Satyendra Nath CHAKRAVARTI.

PAL, Indu Bhusan.—See Anukul Chandra SIRCAR.

PARKEN, Edwin Richard.—See Robert Fergus HUNTER.

PARMANICK, Birendra Nath.—See Shrirang M. SANE.

PATEL, R. P.—See K. G. NAIK.

PATWARDHAN, H. W.—See A. N. KAPPANNA.

PAUL, Prafulla Kumar.—Synthesis of 1:2:7-trihydroxy-5-methylanthrone-8-carboxylic acid 493

PENDSE, Gajanan Purushottam and Sikhibhushan DUTT.—Hetero-ring formation from anilino derivatives of succino-succinic ester 67

PHANSALKAR, Gurudas Ramchandra.—See Shridhar Sarvottam JOSHI.

PILLAY, P. Parameswaran.—See Salimuzzaman SIDDIQUI.

PRAKASH, Satya.—A note on the relation between coagulation and gelation points of sols 137

———Influence of temperature on the setting of inorganic jellies 193

PRASAD, Domodar.—See Paresh Chandra DUTTA.

PAGE

PRASAD, Mata and P. Y. DESHPANDE.—A physical method of estimating ferrous and ferric iron formed by the actions of potassium dichromate and potassium permanganate upon ferrous salt 133

———See also M. V. NABAR.

PURKAYASTHA, Rukmini Mohan.—The reduction of ferric chloride by citric acid, malic acid and sugars 237

RAJA GOPALAN, M. D.—See Anukul Chandra SIRCAR.

RAY, Hirendra Chandra.—See P. C. MITTER.

RÂY, Jnanendra Nath.—See Gurcharan Singh AHLUWALIA.

RÂY, Prafulla Chandra and Nadiabehari ADHIKARI.—Complex compounds of iridium. Part I. Compounds with organic sulphides 251

RAY, Susil Kumar.—See Rajendra Nath SEN.

RAY, Susil Kumar.—On the study of polyhalides. Part I. Formation and dissociation of polyhalides of hydrogen (chloro-dibromide, chloro-di-iodide, bromo-di-iodide, tri-bromide and tri-iodide of hydrogen) 259

RAYCHAUDHURI, S. N.—See J. C. GHOSH.

RAU, (RAO) Rubugunday Hari Ramachandra.—See Biman Bihari DEY.

SADASIVAM, R.—See R. N. SEN.

SANE, Shrirang M., Satyendra Nath CHAKRAVARTY, and Birendra Nath PARMANICK.—Behaviour of nitrophenols with *p*-toluenesulphonyl chloride. Part II. 55

SANE, Shrirang M. and Shiam Sunder JOSHI.—Behaviour of nitrophenols with *p*-toluenesulphonyl chloride. Part III. ... 59

SANKARANARAYANAN, Yegnarama.—See Biman Bihari DEY.

SARKAR, Pulin Bihari.—See Tuhinangsu DAS-GUPTA.

SEN, Hemendra Kumar.—See Sobhanlal BANERJI, also Anath Nath MITRA.

SEN, Rajendra Nath and Susil Kumar RAY.—Studies on Reimer-Tiemann reaction 173

———Condensation of benzotrichloride with phenols ... 181

SEN, R. N. and R. SADASIVAM.—Studies on the formation of azoxy, azo, hydrozo and benzidine compounds and the dyes derived from the latter 403

SEN-GUPTA, Prem Ranjan and Anukul Chandra SIRCAR.—The reaction between quinolinic anhydride and phenylhydrazine ... 145

PAGE

SHARMA, R. D. and N. R. DHAR.—Preparation and properties of highly concentrated sols. Part III. Sols of Zirconium hydroxide 455

SIDDIQUI, Rafat Hussain.—See Salimuzzaman SIDDIQUI.

SIDDIQUI, Salimuzzaman and P. Parameswaran PILLAY.—The alkaloids of *Holarrhena antidysenterica*. Part I. Three new alkaloids from the bark of Indian Holarrhena and new methods of isolation and further purification of conessine ... 553

SIDDIQUI, Salimuzzaman and Rafat Hussain SIDDIQUI.—The alkaloids of *Rauwolfia serpentina*, Benth. Part I. ... 539

SINGH, Bawa Kartar.—The early development of stereochemistry and Pasteur's law 1

SINGH, Bawa Kartar and Bhutnath BHADURI.—Studies on the dependence of optical rotatory power on chemical constitution. Part XIV. Stereoisomeric aminomethylenecamphors, iminomethylenecamphors and their derivatives ... 109

SINGH, Mahan and Rattan Chand BHALLA.—Rotatory powers of some substituted camphoranillic acids and camphorphenylimides 363

SIRCAR, Anukul Chandra and Kshitish Chandra BHATTACHARYYA.—Studies in fluorenone. Part II. 521

SIRCAR, Anukul Chandra and M. D. RAJA GOPALAN.—Studies in acenaphthenone. Part I. Pyrylium derivatives ... 103

———Studies in acenaphthenone. Part II. Indole and acridine derivatives 297

———Studies in acenaphthenone. Part III. On the reactivity of its 'CH_2' group 639

SIRCAR, Anukul Chandra and Indu Bhusan PAL.—Studies in heterocyclic compounds. Part II. 527

———See also Prem Ranjan SEN-GUPTA.

SITHARAMAN, Mayavaram Vasudeva.—See Biman Bihari DEY.

SNELL, Frederick Rowlandson.—A study of the conductivity of solutions of zinc oxide in caustic soda solution ... 583

THOSAR, V. B.—See K. G. NAIK.

VAIDYANATHAN, N. Anantha.—See Satyendra Nath CHAKRAVARTI.

VENKATASUBBAN, A.—See Satyendra Nath CHAKRAVARTI.

WHEELER, T. S.—See K. R. GUNJIKAR.

Journal of the Indian Chemical Society.

Page

Abralin (GHATAK and KAUL) 387

Abrine (GHATAK and KAUL) 386

Abrus precatorius, Linn, chemical examination of the seeds of (GHATAK and KAUL) 383

Acenaphthaphenazine, 9-nitro-, 3-chloro-9-nitro-, 3-bromo-9-nitro-, 3 : 4 : 9-trinitro-, 9-amino- (GUHA) ... 424-425

2 : 3-Acenaphthbenzopyrylium chloride, ferrichloride, perchlorate and their 7-hydroxy derivatives (SIRCAR and RAJA GOPALAN) 104, 105

Acenaphthenequinone, dyes derived from azine and indigoid vat dyes (GUHA) 423

Acenaphthenone, anisylidene, benzylidene (*m*-nitro, *p*-nitro-, *m*-hydroxy-, *p*-acetylamino-), cinnamylidene-, *iso*nitroso-, salicylidene (SIRCAR and RAJA GOPALAN) ... 643-648

action of nitroso compounds on (SIRCAR and RAJA GOPALAN)... 643

condensation with *o*-diketones ,, ,, ... 644

condensation with aromatic aldehydes ,, ,, ... 646

reactivity of its CH_2 group 639

Acenaphthenone, *o*-nitrobenzylidene (SIRCAR and RAJA GOPALAN) 300

studies in, pyrylium derivatives from (SIRCAR and RAJA GOPALAN) 103

indole and acridine derivatives (SIRCAR and RAJA GOPALAN) 297

Acenaphthenone, salicylidene (SIRCAR and RAJA GOPALAN) ... 105

Acenaphthindole, *N*-methyl-$\alpha\beta$-, (SIRCAR and RAJA GOPALAN) 298, 299

Acenaphthylene-indigo, 2-thionaphthene-8′ (3′-chloro or -bromo and 3′ : 4′-dinitro-) (GUHA) 426-427

PAGE

Acetoxyhydroxymercurimalonmono-(*o*-, *m*-, *p*-)toluidides, monophenylamide, mono-(α-, β-)naphthylamides, mono (1:3:4-, 1:4:5)-xylidides (NAIK and PATEL)... 191

Acriquinoline, 6:9-dihydro-5:22-dihydroxy-, and their dimethyl, dimethoxy, diethoxy, tetramethyl, diphenylenedihydroxy and diacetyl derivatives (PENDSE and DUTT) ... 69-70

Actinodaphne hookeri, Meissn, an alkaloid from (KRISHNA and GHOSE) 429

Actinodaphnine, an alkaloid from *Actinodaphne hookeri*, Meissn (KRISHNA and GHOSE) 429

Ajmaline, and methyl, benzoyl and nitroso derivatives (SIDDIQUI and SIDDIQUI) 542-543

determination of active H, OCH_3 and NH_3 in (SIDDIQUI and SIDDIQUI) 541, 544

effect of heat on (SIDDIQUI and SIDDIQUI) 543

1-Aldehydo-2-hydroxybenzene-3-sulphonic acid (SEN and RAY) ... 176

Alkylacetoacetic esters, condensation with halogenated phenols, cresols and resorcinol-mono- and dimethyl ethers (CHAKRAVARTI) 25

condensation with nitrophenols (CHAKRAVARTI) ... 31

1-Alkylaminobenzthiazoles, a note on the effect of the *iso*butyl group on hydrotribromide formation in (HUNTER and PARKEN) 357

Allyl-8-aminoquinoline hydrochloride and 6-ethoxy-(BRAHMACHARI and DAS-GUPTA) 40, 41

Allylthiocarbimido-8-aminoquinoline hydrochloride and 6-ethoxy-(BRAHMACHARI and DAS-GUPTA) 40, 41

Aloe-emodin, synthesis of (MITTER and BANERJEE) ... 375

Aluminium hydroxide sol (MITTER and DHAR) 318

8-β-Amino*iso*propylaminoquinoline dihydrochloride, 6-methoxy-, 2-methyl-6-methoxy-, 2-methyl-6-ethoxy-, 2-methyl-6-chloro-, 2-methyl-(BRAHMACHARI and DAS-GUPTA) 38

Aminomethylenecamphors and their derivatives, stereoisomerism of (SINGH and BHADURI) 109

N-(8-Quinolyl)μ-amino-α-methylthiazoline hydrochloride (BRAHMACHARI and DAS-GUPTA) 42

8-β-Aminopropylaminoquinoline dihydrochloride and 6-chloro-(BRAHMACHARI and DAS-GUPTA) 36

PAGE

Anhydrocotarnino, *p*-phenetidide, *p*-nitrotoluene, *p*-hydroxytoluene, 1-phenyl-3-methylpyrazolone, 1:5-diphenyl-3-methylpyrazole (AHLUWALIA, KOCHHAR and RÂY) 218, 219
Aniline, *p*-cyano-(HUNTER) 439
1-Anilinobenzthiazole, 4′-fluoro-, 4′-iodo-, and 4′-cyano-(HUNTER) 439
Anilinobenzthiazole derivatives, the effect of fluoro, iodo and cyano substituents on the formation of (HUNTER) ... 435
Anthraquinone, 1-aldehydo-2-hydroxy- (SEN and RAY) ... 176
β-aldehyde and *β*-carbinol (MITTER and BANERJEE) ... 376
1:8-dihydroxy-3-aldehyde and 3-carbinol (MITTER and BANERJEE) 377
β-carboxylic acid chloride (MITTER and BANRRJEE) ... 376
Anthrone-8 carboxylic acid, 1:2:7-trihydroxy-5-methyl, synthesis of (PAUL) 493, 495
Antimalarials, attempts to prepare (AHLUWALIA, KOCHHAR and RÂY) 215
Approach values, the general formula for (GUNJIKAR and WHEELER) 87
Arsenic, a new method of estimation of, in organo-arsenic deritives (DAS-GUPTA) 95, 203
Arsenious sulphide sol, coagulation of, by sulphuric acid solutions (JOSHI and PHANSALKAR) 157
rate of coagulation and flocculation values (GHOSH) ... 591
Azlactone from 6-aldehydocoumarin and its condensation with some aromatic amines (BANERJEE) 479

B

Benzaldehyde, *p*-hydroxy-, 2-nitro-4-hydroxy-, 3-bromo-*p*-hydroxy-, 2-methyl-5-*iso*propyl-5-hydroxy-, 6-methyl-3-*iso*propyl-4-hydroxy- (SEN and RAY) 174-178
Benzaldehyde, condensation with malonic acid in presence of quinoline (DALAL and DUTT) 311
Benzidine, *o*-and *m*-dihydroxy-, and *o*-and *m*-dihydroxymethyl-their bisazo-*β*-naphthol, -*β*-naphtholsulphonic acid, -*β*-naphthylamine and -dimethylaniline derivatives (SEN and SADASIVAM) 406-411
Benzoic acid, 3-methyl-5-nitro-6-diphenylamino- and its ethyl ester (SANE, CHAKRAVARTY and PARMANICK) 57

PAGE

Benzoic acid, 1-$\alpha\beta\beta\gamma$-tetrachlorobutyl-2-methylhydroxy-5-, 3-$\alpha\beta\beta\beta$-tetrachloroethyl-5-methyl-6-hydroxy-(KATRAK and MELDRUM) 125

p-hydroxy- (SEN and RAY) 174

m-hydrazo (SEN and SADASIVAM) 405

3-hydroxy-4-methyl-2-$\beta\beta$-dichloroethyl-, 5-methoxy-4-methyl-2-$\beta\beta$-dichloroethyl-, 3-hydroxy-4 : 6-dimethyl-(MELDRUM and KAPADIA) ... 487-490

Benzopyrylium compounds, a preliminary note on a new method of synthesis of (GOSWAMI and CHAKRAVARTI) ... 599

Benzophenone, *o*- hydroxy-(SEN and RAY) 182

Benzotrichloride, condensation of, with phenols (SEN and RAY) 181

Benzoyl (3′-carboxy-4′-hydroxy-, 3′-carboxy-4′-methoxy-, -3′-carboxy-4′-hydroxy-5′-methyl-, 3′-carboxy-4′-methoxy-5′ methyl-,) -2 benzoic acid and their methyl esters (MITTER and RAY) 249-250

Benzthiazole, (ethyl-1-methylamino-, 1-methylamino-, ethyl-1-ethylamino-, ethyl-1-*iso*butylamino-)-5-carboxylate and hydro tribromides (HUNTER and PARKEN) ... 360-361

Benzyl alcohol, *m*-azo-, *m*-and *o*-hydrazo- (SEN and SADASIVAM) 408

Benzylaminomethylene-*d*-camphor (SINGH and BHADURI) ... 113

Bisacenaphthylidenediketone (SIRCAR and RAJA GOPALAN) 643, 644

Bismethylbenzoxazole (SEN and SADASIVAM) 407

Bromacetate ions, kinetics of reaction with thiosulphate ions (KAPPANNA and PATWARDHAN) 379

Bromo-di-iodide (RAY) 258

Bromophenols, chromones from (CHAKRAVARTI) ... 29

Butylchloral, condensation with gallic acid and the three cresotic acids (KATRAK and MELDRUM) 127

Butane, $aa\beta$-trichloro-di -(3-methyl-4-hydroxy-5-carboxyphenyl)-(KATRAK and MELDRUM) 125

C

Camphoranilic acids (substituted) rotatory powers of (SINGH and BHALLA) 363

Camphoranilic acid, 3′: 5′-dimethyl-, 2′: 4′-dimethyl-, 2′: 4′--dichloro-, 2′: 5′-dimethoxy-, 3′-methoxy-, 3′-ethoxy-, 2′-methoxy-4′-nitro-, 2′-ethoxy-4′-nitro-, 2′-methyl-4′-nitro-, 3′-methyl-2′ (or 6′) -nitro- (SINGH and BHALLA) 365, 366

PAGE

Camphoric anhydride, condensation of, with substituted amines (SINGH and BHALLA) 365

Camphoro (2′: 4′-dichloro-, 2′:5′-dimethoxy-, *m*-methoxy-, *m*-ethoxy-, 2′:6′-dimethyl)-phenylimide (SINGH and BHALLA) 366-367

Camphorophenylimides, rotatory powers of (SINGH and BHALLA) 363

s-*p*-Carbethoxyphenylalkylthiocarbamides, interaction of, with bromine (HUNTER and PARKEN) 357

Cellulose, octa-acetate, yield of (CHOWDHURY and BASU) ... 622

Celluloses, jute and cotton, a comparative study of (CHOWDHURY and BASU) 615

differentiation of, by means of viscose reaction 624

mythylation of (CHOWDHURY and BASU) 624

Ceric hydroxide, inhibition of precipitation of, by sugars (NABAR and PRASAD) 609

Cerium in organic synthesis (LAL and DUTT) 565

Chemical constitution, studies on the dependence of optical rotatory power on (SINGH and BHADURI) 109

Chemotherapy, studies in (AHLUWALIA, KOCHHAR and RÂY) ... 215

Chloral, condensation of, with 2-hydroxy-*p*-toluic acid and its methyl ether (MELDRUM and KAPADIA) 483

Chloro-dibromide, and di-iodide (RAY) 259

Chow chow (*sechium edule*), activity of the peroxidase of, (DEY and SITHARAMAN) 499

Chlorophenols, chromones from (CHAKRAVARTI) 27

Chromium arsenate jelly (PRAKASH) 196

Chromium hydroxide sol (MITTER and DHAR) 319

Chromone, 2:8-methyl-3 ethyl-, 2-styryl-8-methyl-3-ethyl-, 6 (or 8)-chloro-(and bromo)-2-methyl (styryl)-3-alklyl-, 2 styryl-3:6 (3:8) -dimethyl-, 6 (or 7)-nitro-2-methyl (styryl) -3-alkyl- (CHAKRAVARTI) 27-35

Chromones, from β-naphthol (DEY and LAKSHMINARAYAN) 149

synthesis of (CHAKRAVARTI) 390

from halogenated phenols and cresols (CHAKRAVARTI) 25

from nitrophenols (CHAKRAVARTI) 31

Chrysophanic acid, diacetyl (MITTER and BANERJEE) ... 377

Clupea ilisha, examination of the oil of (GOSWAMI and DUTTA) 243

Coagulation of colloids, from the standpoint of Smoluchowski's theory, arsenious sulphide sol (JOSHI and PHANSALKAR) ... 157

Coagulation, its relation with gelation (PRAKASH) 137

PAGE

Cobalt chloride, a magnetic study of colour changes in (BHATNAGAR and KAPUR) 341
Colloidal solutions, relations between charge and stability (DESAI, NABAR and BARVE) 463
effect of dialysis, and of gold, (DESAI, NABAR and BARVE) 463
Complex compounds of iridium: $IrCl_3 \cdot 3Me_2S$, $Ir_2Cl_5 \cdot 4Me_2S$, $IrCl_3 \cdot 2Me_2S$, $IrCl_3 \cdot 3Et_2S_2$, $Ir_2Cl_5 \cdot 4Et_2S$ $(IrCl_2)_2 \cdot 3Et_2S_2$ (RÂY and ADHIKARI) 253-256
Conessimine, characterisation of, and derivatives (SIDDIQUI and PILLAY) 557-560
Conessine, new method of isolation of and further purification of, and derivatives (SIDDIQUI and PILLAY) ... 553, 557, 563
Cotarnine, derivatives of (AHLUWALIA, KOCHHAR and RÂY) ... 215
oxidation of narcotine, to (AHLUWALIA, KOCHHAR and RÂY) 217
o-Coumaric acid, azoxy- (SEN and SADASIVAM) 405
5-aldehydo-, 5-carboxyl- (SEN add RAY) 176, 177
Coumarin-6-arsinic acid, 7-methyl-, 4:7-dimethyl- (GOSWAMI and DAS-GUPTA) 92
Coumarin, 6-azoxy- (SEN and SADASIVAM) 404
6-aldehydo- (SEN and RAY) 177
from β-naphthol (DEY and LAKSHIMANARAYANAN ... 149
introduction of arsenic in (GOSWAMI and DAS-GUPTA) 91
-(7-methyl-4:7-dimethyl)- 6-azonaphthylsulphoarsinic acid (DAS-GUPTA) 372, 373
3:4:6-trimethyl- (CHAKRAVARTI) 29
Coumarin-6-pyruvic acid in the form of quinoxalino compound (BANERJEE) 430
Coumarinic acids derived from $\beta\alpha$-1:2-naphthapyrones, the stability of (DEY, RAO and SANKARANARAYANAN) ... 281
o-Coumarylphenylketone (SEN and RAY) 133
Cresotic acid, condensation of butyl chloral with (KATRAK and MELDRUM) 121
p-Cresotinic acid, nitro-(SANE, CHAKRAVARTY and PARMANICK) ... 56
Cystine, studies in oxidation-reduction potential of (GHOSH, RAYCHAUDHURI and GANGULI) 43

D

Dehydropropionyl-(butyryl)-acetic acid (DESHAPANDE) 305, 306
